#2

NO harmful ingredients / NO irritation

The above is based our own test results.

Quercus Soft Peeling

Softening dead skin care

Experience your change in 7 days

Skin turnover cycle is 28days.

Once in a month! Use only **30min!** You can maintain healthy feet.

Tip

Tips good to know!

Only once a month!

Skin turnover cycle is 28days.
Although they may reappear,
you will experience a totally
different skin.

Non-irritation!

Peeling SPA is non-irritating ingredient
that softens dead skins,
so you do not need to peel it off.

With Foot SPA!

If you use **FOOT SPA** together,
it helps soften dead skin
and moisturize.

With Foot bath!

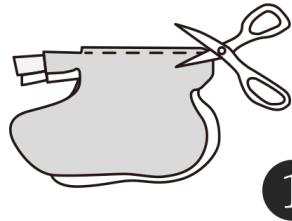

If you use a foot bath with warm water
at the time of exfoliating dead skin, it
will be easier to peel.

Tip

How to use

Tip for making your feet as smooth as a baby!

Clean your feet and
cut open the package.

Fit sheet to the shape of
your feet, then secure
with the provided stickers.

After 30min,
and then rinse it out with
lukewarm water.

The dead skin cells
will begin to peel off
after 4-6 days.

FAQ

Q & A

Frequently asked question about **Foot Peeling SPA**

Q1. How long is the use cycle?

Your skin undergoes a natural turnover cycle every 28days or so. After exfoliating, we recommend once a month so that the skin can regenerate.

Q2. Is there any dead skin left immediately after using the product?

Because it is a natural ingredient, it does not peel off Immediately. The dead skin is gradually peeled off from 4 to 5days after usage.

Q3. Is it okay to use for sensitive skin?

Peeling SPA is a non-irritating product with an irritation index 0.00, verified through skin safety assessments.

Q4. Further question?
